Summary of Legislation: This bill requires the Secretary of State (SOS) to adopt rules to establish a classification of dealer license plates for the manufacturers of vehicle subcomponent systems, and permits rules to be adopted prescribing the general conditions for use of license plates for the additional classification of manufacturers of vehicle subcomponent systems. The bill sets a \$10 fee for a dealer license plate for a manufacturer of vehicle subcomponent systems. It requires the SOS to adopt interim written guidelines regarding the classification of dealer license plates for the manufacturers of vehicle subcomponent systems.

Effective Date: Upon passage.

Explanation of State Expenditures: Requiring the SOS to establish rules and guidelines will have no fiscal impact and will be completed under current rule-making procedures. The fund affected is the dedicated fund supporting the operation of the Dealer Services Division of the SOS.

License Plates: PEN PRODUCTS, the manufacturing arm of prison-made products, will charge the Bureau of Motor Vehicles (BMV) \$3.19 per plate for the newly established plate. The funds affected are the PEN PRODUCTS Revolving Fund and the Motor Vehicle Highway Account (MVHA), which supports the BMV. The plates will be transferred to the SOS.

Explanation of State Revenues: The SOS will charge \$10 for a dealer license plate for a manufacturer of vehicle subcomponent systems. Revenue will depend upon the number of dealers who purchase the newly created license. The number of such dealers is not known at this time.
